## Iowa Department of Economic Development Job Training Partnership Act Emergency Public Jobs

The Iowa Department of Economic Development has received a special grant of \$2.5 million from the U.S. Department of Labor to assist with recovery from the recent floods. A total of up to \$15 million may become available following action by Congress on the disaster relief budget.

The funds will be used to provide temporary jobs, up to 6 months in duration or up to \$6,000 in wages, for workers who are dislocated from their current employment. The jobs will involve cleanup of public and private nonprofit property, restoration of public utilities, repairing and rebuilding public facilities, and other work in response to the disaster. Wages will be based on the prevailing wage for the type of work performed.

The grant will be operated through the existing network of 16 Dislocated Worker Centers established under the Job Training Partnership Act. Dislocated workers seeking employment under the grant can apply through the local centers.

**We suggest calling the Dislocated Worker Center or the local Employment Services office to see if special local locations or other arrangements have been made.**

Cities, counties and nonprofit organizations directly involved with disaster recovery work may also call the local Dislocated Worker Center to secure workers paid under the grant to perform needed work.
